Steps: 1. Power Point presentation of clothes using website:

4. Option for upper begginers or lower intermediates: Divide the students into pairs.

3. Cut the bingo boards into separate images – one set of images for each pair.

5. The students take the cards one by one (for change) telling the name of clothes.

If the name is correct the student gives a point. The winner is that who collects more points.

Option for lower intermediates: using the PPoint presentation revise Simple Present questions: What do you like wearing? (in summer/winter, etc.).

Ask the students to describe the other student clothes: What is he/she wearing today?
